## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with **Michael W. Taylor** on **05/17/2004**.

A. Claim 15, " wherein said **fault detection means** further ..... " change to " wherein **fault signaling means** further.... "

B. Claim 23, " wherein said **fault detection circuit** further ..... " change to " wherein **fault signaling circuit** further.... "

### *Allowable Subject Matter*

2. Claims 8-32 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to show an integrated circuit comprising: fault signaling means connected to the pre-sampling means and to the analog-to-digital converter for generating a fault signal when the numerical value of the externally generated analog signal is equal to the numerical value of the internally generated analog reference signal, the fault signal

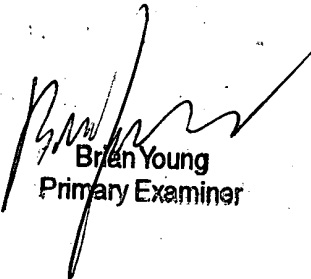

indicating that an electrical connection providing the externally generated analog signal to the at least one input pad is faulty as called for in claims 8, 16 and 24. Therefore, claims 8-32 are presently allowed.

**Conclusion**

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B Nguyen whose telephone number is (571) 272-1808. The examiner can normally be reached on 8:00AM-5:00 PM M-F.
